**TAKE
DOWN**

Blocks and soft bait are sold by weight and not by unit. Number of blocks/soft bait pouches per pail are approximates.

SoftSecure™ Technology

- Rodenticide placement device
- Ideal for soft bait and also works with traditional blocks
- Designed for most professional bait stations
- No bait rod hassles
- No paper means no mess
- 12 SSTs per case
- Easy to use: peel off paper, place bait, close lid and go

Soft Secure
Technology

Aegis®

Valuable features

- See-through pathway designed to encourage entry and feeding by rodents
- Long-lasting mechanical hinge (not available on mouse station)
- Locks open fast and easy, all with same key

A E G I S®

Aegis®-RP

- Black or gray
- Use with trap or rodenticide
- Lid opens away from wall
- Compact size
- Install either horizontally or vertically
- SoftSecure™ Technology (SST) compatible

Aegis®-RP Anchor

- Black or gray with an integrated concrete block
- Use with trap or rodenticide
- Two bolts embedded into concrete
- Pre-assembled station eliminates set-up hassle and costs
- Install either horizontally or vertically
- SST compatible

Aegis® Modular

- Black only
- Robust station
- Use with bait, traps or glue boards
- SST compatible

Aegis® Rat

- All black, all white (Cool Box) or black with clear lid
- Double-tunnel design for improved bait consumption
- SST compatible

Aegis® Mouse

- All black or with clear lid
- Twice the capacity of most stations
- Specifically designed to hold soft bait
