

# Renegade™ Mini Blocks

- Renegade 20 gram mini blocks are an ideal maintenance rodenticide where crumbs and scatter are a concern.
- Formulated with difethialone (25 ppm), a second-generation anticoagulant; Vitamin K1 is the antidote.
- Contains mold inhibitors, making this product a great option for high moisture environments such as around cool-cells.
- Blue marker dye can be seen in droppings.
- Place in areas with mold potential and/or humid, moist baiting conditions.
- Available in 20 lb. pails (approx. 454 blocks per pail).
