

Soft Bait Monitoring That's Attractive.

80016178

Formulated with ingredients that rodents and other nuisance animals can't resist, NoTox™ baits are designed to monitor activity. They contain no rodenticide so they pose no danger to rodent predators or any other curious animals.

- Attract rodents, nuisance animals and pests
- Bait can be removed from pouch for flexible application
- For use with snap traps, glue boards, bait stations and live catch traps
- Based on the same bait formula as FirstStrike®
- Highly attractive even when competing food is available
- 10g pouches available in 1 lb. bag or 8 lb. case

Target pests include, but aren't limited to, the following:

House Mouse

Norway Rat

Roof Rat

Raccoon

Chipmunk

Squirrel
