## YOUR HAND-PICKED CALIFORNIA SOLUTIONS

### TakeDown<sup>®</sup> II Soft Bait

**8g pouch | Approx. 227 pouches per bag | 4 lb. bag | Case of 4-4 lb. bags**

- Active ingredient: bromethalin (100 ppm).
- An acute rodenticide for the professional pest control market.
- Provides faster results than anticoagulant rodenticides.
- Effective in fighting anticoagulant-resistant rodent populations, especially those in commercial settings.

### TakeDown<sup>®</sup> II Mini Blocks

**14g block | Approx. 128 blocks per bag | 4 lb. bag | Case of 4-4 lb. bags**

- Active ingredient: bromethalin (100 ppm).
- An acute rodenticide for the professional pest control market.
- Provides faster results than anticoagulant rodenticides and is effective in fighting anticoagulant-resistant rodent populations, especially those in commercial settings.
- Designed with rodent gnawing edges and a center hole for securing on vertical or horizontal rods.

### NoTox<sup>™</sup> Attractant

**Soft Bait: 10g pouch | Approx. 45 pouches per bag | 1 lb. bag | Case of 8-1 lb. bags**

- Soft bait attractant with no active ingredient. Poses no danger to rodent predators or other curious animals.
- Attract rodents, nuisance animals and pests with a nontoxic formulation designed to monitor activity.
- Bait can be removed from pouch for flexible application and can be used with snap traps, glue boards, bait stations and live catch traps.
- Highly attractive even when competing food is available.

**Mini Blocks: 20g block | Approx. 227 blocks per pail | 10 lb. pail**

- Mini block attractant with no active ingredient.
- Attract rodents, nuisance animals and pests with a nontoxic formulation designed to monitor activity.
- Poses no danger to rodent predators or other curious animals.

## IGI Carbon Dioxide™ Powered by Liphatech

IGI CO<sub>2</sub> is registered by the EPA and is an alternative pest control tool in the PMP's arsenal of products for burrowing rodents and commodity fumigation. CO<sub>2</sub> gas is non-flammable, invisible, and odorless with a quiet application.

### Burrowing Rodents

Approved for use in municipal, residential, commercial, and field settings; can be used next to occupied buildings

Effective against pests that occur in burrows or underground tunnel networks, including **pocket gophers, ground squirrels, rats, and moles that occupy underground tunnels and burrows\***

### Commodity Fumigation

Approved for use in storage, transport, or containment structures, including, in silos, storages, trucks, trailers, sealed railroad cars, and cargo ships

Effective against pests that occur in stored products or structures including, **beetles, psocoptera, and moths\***

**Certified for use in pest management programs under the USDA National Organic Program (NOP)**

*\*Not permitted for use against the following species in California: Agricultural pests, including thrips and spider mites, groundhogs, and voles*
