

# LIPHATECH<sup>®</sup>

## CALIFORNIA RODENT CONTROL SOLUTIONS

Liphatech offers pest control professionals in California a variety of solutions that are effective in controlling rodents and the damage they cause. Several Liphatech soft baits and mini blocks are approved for use in California.

### Flatline<sup>®</sup> Soft Bait

Flatline soft bait is the first and only chlorophacinone soft bait rodenticide for the professional market that effectively kills rats and mice. Flatline is for consistent everyday use – during light to heavy rodent activity.

- Active ingredient: chlorophacinone (50 ppm); Vitamin K<sub>1</sub> is the antidote
- Multiple-feed anticoagulant rodenticide
- Formula is palatable to rats and mice
- Maintains integrity in hot environments

#### Soft Bait (28g pouches)

- 65 pouches per 4 lb. bag (case of 8)
- 253 pouches per 16 lb. pail

### TakeDown<sup>®</sup> II Soft Bait

TakeDown II is a bromethalin soft bait for the professional pest control market. An acute rodenticide, TakeDown II is effective in fighting anticoagulant-resistant rodent populations, especially those in commercial settings. The first dead rodents may appear as soon as two days after a lethal dose is consumed.

- Active ingredient: bromethalin (100 ppm)
- Faster results than anticoagulant rodenticides
- Formula is palatable to rats and mice
- Maintains integrity in hot environments
- Ideal for use with vertical or horizontal rods and SST

#### Soft Bait (8g pouches)

- 227 pouches per 4 lb. bag (case of 4)

### TakeDown<sup>®</sup> II Mini Blocks

TakeDown II mini blocks can be used to target Norway rats, roof rats and house mice both indoors or outdoors. It is an acute rodenticide that is effective for fighting anticoagulant-resistant rodent populations. The first dead rodents may appear as soon as two days after a lethal dose is consumed.

- Active ingredient: bromethalin (100 ppm)
- Blocks are designed with rodent gnawing edges
- Faster results than anticoagulant rodenticides
- Blocks feature a center hole for securing on vertical or horizontal rods

#### Mini Blocks (14g)

- 128 blocks per 4 lb. bag (case of 4)

## NoTox™ Soft Bait

NoTox Attractant is a non-toxic soft bait designed for monitoring activity or attracting rodents. It is made with highly-attractive food-grade oils and grains.

- No active ingredient
- Use as an attractant in snap traps
- Maintains integrity in hot environments

### Soft Bait (10g pouches)

- 45 pouches per 1 lb. bag (case of 8)

## NoTox™ Monitoring Blocks

NoTox monitoring blocks are a unique mini block used for monitoring rodents in and around homes, as well as industrial, commercial, agricultural and public buildings. NoTox blocks can also be used in transport vehicles.

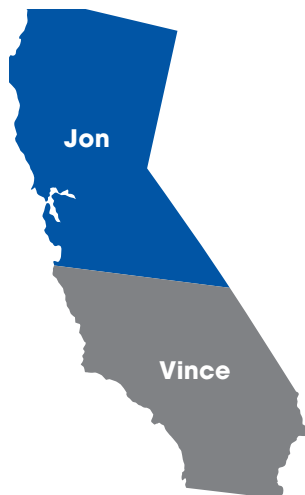

- No active ingredient
- For use in mouse and rat bait stations
- Red dye visible in droppings
- Triangle shape aids in bait identification

### Mini Blocks (20g)

- 227 blocks per 10 lb. pail
